

CI/CD proposal

Here are some of the benefits that hugely impact our business growth as well as reduce development and operational costs and increase revenue.

- Less developer time on issues from new developer code (Reducing costs)
- Less bugs eventually, we will catch before hand and less time on testing (Avoid costs)
- Prevent embarrassing and costly security holes (Avoid costs)
- Less human error, Faster deployment (Avoid costs)
- New value generating features released more quickly (Increase revenue)
- Less time to market (Increase revenue)
- Reduced downtime from a deploy-related crash or major bug (Protect revenue)
